AMI (CANADA) WORKSHOP

Erin Higginbottom
has been a passionate Montessorian for over 15 years.

She began her Montessori journey as a Casa Assistant and went on to complete her AMI Elementary training at the Montessori Institute of Milwaukee. She has been a Lower and Upper Elementary Teacher and is currently the Head of School at Squamish Montessori Elementary School. Erin's love of literacy and her dedication to supporting struggling students in her classroom led her to become certified as an Orton Gillingham Therapeutic Tutor. She very much enjoys helping fellow Montessori teachers develop and implement successful literacy strategies into their daily classroom practice, and loves to tuck her sons in with a good book every evening.

BUILDING STRONGER LITERACY SKILLS: Orton Gillingham Tools for the Montessori Elementary

The Montessori environment is rich with opportunities for multisensory learning. When students who are struggling with literacy need more than our materials can offer, what is available to us? How can we best help these students or those who have been diagnosed with dyslexia? The Orton Gillingham Method is a multisensory approach to teaching literacy skills, often considered the gold standard of literacy support. This workshop will introduce the Orton Gillingham Method, explore the parallels between Orton Gillingham and Montessori, and provide teachers with hands on, practical tools and techniques to support literacy in their classrooms.

Open to Montessori Elementary teachers and support staff.
